

# RESCOLL

**A unique overall offer qualified by AIRBUS  
from FRP manufacturing to specimen testing**

## FRP panels manufacturing

- Prepegs storage in cold room
- Cutting and lay-up
- Autoclave curing
- Ultrasonic NDT control

## Specimen machining and preparation

- Turning, facing, deburring, finishing, drilling
- Tabs bonding and inserts, screws, fixtures adjustment

## Testing

**Incoming tests, qualification, production control**

- **Physico-chemical analysis** (*Rheology, resin and fiber, baths pollution, microscopy, chromatography*)
- **Thermo-mechanical analysis** (*DMA, DSC, TGA, TMA*)
- **Mechanical testing** (*Monolithic FRP, sandwich and honeycomb panels, structural bondings*)
- **Fire testing** (*Flammability and flame propagation, heat release, smoke density and toxicity, oil burner*)

Accréditation n° 11000 01714-1122
