

RESCOLL

Analysis and Testing Laboratory

- Biocompatibility (*ISO 10993*)
- Cleaning validation (*ISO 19227*)
- Stability studies (*ICH*)
- Packaging validation (*ISO 11607-1*)
- Mechanical tests on materials and implants (*ISO 17025 Static and fatigue*)

Design and Development (ISO 13485)

Specialist in polymers, adhesives and coatings

- Technological watch & benchmarking (*Literature review, Research of raw materials and products*)
- Materials formulation and process development (*Electrospinning, 3D printing, coating and bonding*)
- Expertise (*Performance, ageing and sterilization resistance*)

Manufacturing (ISO 13485)

- Metal machining (*Swiss turning, multiaxis milling*)
- Plastics processing
- Finishing, laser marking and packaging
- ISO 7 clean room
